YOUR MOMENT HAS ARRIVED.

Are you ready?

**Because in a boarding smart space, nothing is
stopping you. If you dare.**

When do Smart Spaces run?

Boarding smart spaces run outside of term time. When term is out, your time is in. It is time for 'what if' to become 'now I am'.

You can't change what others think or do – the only thing you can change is your relationship with yourself. By having the time and space to

invest in yourself you are creating a better tomorrow for you, your family and community.

What happens on the day?

Smart Spaces run from 9.30am or 10.00am (it's always good to have a lie in!) until 5.00pm in various locations around the UK.

Everyone in the room has the same goal as you – to get their house in order.

How do we do this?

By reflection, cutting edge coaching exercises, lots of Post-it Notes, balloons, LEGO® blocks and possibly even a game of Jenga.

To enjoy the course, you will need to

come with the curious nature of a child and the focus to build your tomorrow. By the end of the day, you will have a plan.

Why have they been created?

Boarding practitioners give so much investment to helping other people move forward. It is time for you.

By living where you work, when things go wrong your whole life can be turned upside down. This has been the case for many boarding

practitioners and it is time for change. The only sure investment you can make is in yourself.

How do I get involved?

Have a look at our course list and see what you need.
